## PROFESSIONAL SUMMARY

Technical Project Manager with hands-on cyber security experience supporting offensive security and penetration testing engagements. Proven ability to coordinate contractors, manage assessment lifecycles, track scope and timelines, and ensure high-quality deliverables. Experienced in translating complex technical work into clear communication for clients, leadership, and stakeholders while driving operational efficiency through structured workflows and process improvement.

---

## EDUCATION

**BS Cybersecurity and Information Assurance | WGU**

**2023 -2026**

Relevant coursework includes information security and assurance, network and security foundations, risk management, security operations, incident response and service management.

---

## EXPERIENCE

**Offensive Operations Manager | RedSeer Security**

**July 2024 - Current**

- Coordinate and oversee offensive security engagements, ensuring scope, timelines, and deliverables are met
- Manage contractor workloads and testing assignments, tracking progress and maintaining quality standards
- Lead engagement workflows using Agile/Kanban methodology in Microsoft Planner to provide operational visibility
- Facilitate client communication, scheduling and report delivery coordination

**Security Consultant | RedSeer Security**

**April 2024 – July 2024**

- Supported penetration testing engagements through scoping assistance, documentation, and reporting workflows
- Assisted in development of internal processes for engagement tracking and quality assurance
